

Advisor Brief

A clearer starting point for company research.

Enter a stock symbol to bring market data, company filings and a concise research brief into one place.

A simple workflow

Why it helps

Less tab switching

Quotes, filings and a brief in a single view.

A useful starting point

Company context and reported risks for discussion.

Evidence you can inspect

Source links let you check the original disclosures.

How to use it well

Check the sources

Open the original company filings behind the brief.

Check the timing

Read quote timestamps and filing dates.

Keep people in charge

Research support; people make financial decisions.

● **Current status** Live prototype. The complete AI research flow is still under validation.
